

# New Patient Special

WE PROMISE WE'LL TREAT YOU LIKE FAMILY

## Comprehensive Exam

One of our extraordinary doctors will conduct a comprehensive examination including evaluation of hard and soft supporting tissues; oral cancer screening; check of biomechanics function and alignment; and a complete oral evaluation of all teeth.

## Professional Cleaning

One of our extraordinary Dental Hygienist will gently and thoroughly clean your teeth including blood pressure monitoring, soft tissue evaluation, full gum line survey, tartar removal (scaling), flossing, polishing of teeth, and oral hygiene instructions.

## Full Mouth Digital X-Rays

We'll get the full picture of your dental health with our handheld, digital x-ray device. This new technology is much more comfortable for patients than traditional x-ray machines, reduces radiation exposure by up to 80%, and delivers instant on-screen images.
